

Privacy Policy

Our Commitment To Privacy

Your privacy is important to us. To better protect your privacy we provide this notice explaining our online information practices and the choices you can make about the way your information is collected and used. To make this notice easy to find, we make it accessible from our homepage and every point where personally identifiable information may be requested.

What Information Do We Collect?

When you visit our website you may provide us with two types of information: Personal information you knowingly choose to disclose that is collected on an individual basis and Website use information collected on an aggregate basis as you and others browse our website.

Website User Information

Similar to other commercial websites, we utilize a standard technology called "cookies" (see Cookies") and web-server logs to collect information about how our website is used. Information gathered through cookies and web-server logs may include the data and time of visits, the pages viewed, time spent on our website, and the websites visited just before and immediately after our website.

Personal Information You Choose to Provide:

You may provide us information about yourself, your firm, company, or organization, and your practices when you complete our Request for Information e-Form. You may also provide additional comments on how you see 20/20 Vision Center servicing your needs and interests.

Email Information

If you choose to correspond with us through email, we may retain the content of your email messages together with your email address and our responses.

***Cookies**

Cookies are parcels of text sent by a server to a web browser and then sent back unchanged by the browser each time it accesses that server. Cookies are used for authenticating, tracking, and maintaining information about users

Cookies are subject to a number of misconceptions, mostly based on the erroneous notion that they are computer programs. In fact, cookies are simple pieces of data unable to perform any operation by themselves. They are neither spyware nor viruses, despite the detection of cookies from certain sites by some over sensitive anti-spyware products.
